

PK-10

- Box type : Design of Trapezoidal Anti - wave Box
- Radiation mode : Front-down low-frequency radiation
- Tweeter : 1X44mm
- Woofer : 1X10 "65Core / 50Core
- Treble protection : Overcurrent, overvoltage
- Rated damping : 8 Ω
- rated power : 300W
- Peak power : 600W
- Frequency response : 60Hz-20KHz
- Sensitivity : 99dB
- Directivity : 90 X 60
- Continuous sound pressure : 126dB
- Maximum sound pressure : 129dB
- Box material : High quality imported birch plywood
- Surface finish : Sapphire blue or black color waterproof green paint box
- Mask : Metal protective iron net inside the paste dust (white / black)
- Hanging point : 12XM8 suspension
- Size (HXWXD) mm : 504X320X340
- weight : 16kg / pc

PK series to enjoy the realm beyond the perfect

soul shock with its gaze in the relative burst of the moment. Today we are above the peak and then brilliant, PK series of fighting god turned out to subvert the traditional, cast the legend! PK series of novel design everywhere exudes a shocking atmosphere, the choice of advanced speaker unit, the precise frequency system. Sound reduction is extremely high, and strive to reflect the high cost and good reliability. In the performance of the sound quality of the product with a number of practical application experience, outstanding performance, sound full of natural, able to adapt to a variety of high demand for the environment.
